Acetazolamide
Percutaneous transluminal angioplasty in the treatment of atherosclerotic disease of the anterior cerebral circulation and hemodynamic evaluation, 953
Acoustic neurinoma
Hemihypoglossal–facial nerve anastomosis in treating unilateral facial palsy after acoustic neurinoma resection, 51
Acquired immunodeficiency syndrome
Isolated toxoplasmosis of the thoracic spinal cord in a patient with acquired immunodeficiency syndrome. Case report, 493
Adenosine triphosphate
The effect of hemoglobin and its metabolites on energy metabolism in cultured cerebrovascular smooth-muscle cells, 244
Adenovirus
Adenovirally mediated gene transfer into experimental solid brain tumors and leptomeningeal cancer cells, 70
Adrenocorticotropic hormone
Endocrine and metabolic characteristics of polyoma large T transgenic mice that develop ACTH-producing pituitary tumors, 879
Allodynia
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Alpha-D-mannosidase
Multiple suture synostosis, macrocephaly, and intracranial hypertension in a child with α-D-mannosidase deficiency. Case report, 647
Amnesia
Treatment of trauma-induced amnesia. Letters, 518
Analgesia
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Anastomosis
Hemihypoglossal–facial nerve anastomosis in treating unilateral facial palsy after acoustic neurinoma resection, 51
Treatment of vertebral artery dissecting aneurysm by aneurysm trapping and posterior inferior cerebellar artery reimplantation. Case report, 137
Anatomical study
Microsurgical anatomy around the foramen of Luschka in relation to intraoperative recording of auditory evoked potentials from the cochlear nuclei, 933
Microvascular anatomy of the anterior surface of the medulla oblongata and olive, 97
Quadrant anatomy of the articular pillars (lateral cervical mass) of the cervical spine, 1011
Androgen receptor
Androgen receptor expression in meningiomas, 453
Aneurysm
Nonvisualization of a large cerebral aneurysm despite high-resolution magnetic resonance angiography. Case report, 294
Phase II trial of tirilazad in aneurysmal subarachnoid hemorrhage. A report of the Cooperative Aneurysm Study, 786
Poor prognosis of ruptured intracranial aneurysms of the posterior circulation, 791
Transthird ventricular approach for a high basilar bifurcation aneurysm. Report of three cases, 664
Treatment of vertebral artery dissecting aneurysm by aneurysm trapping and posterior inferior cerebellar artery reimplantation. Case report, 137
Aneurysm clip
Use of a new aneurysm clip with inverted-spring mechanism to facilitate visual control during clip application. Technical note, 898
Aneurysm surgery
Postoperative angiography. Letters, 148
Angiogenesis
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
The role of minocycline in treatment of intracranial 9L glioma, 635
Angiography
Postoperative angiography. Letters, 148
The use of magnetic resonance angiography in stereotactic neurosurgery, 982
Angioplasty
Percutaneous transluminal angioplasty in the treatment of atherosclerotic disease of the anterior cerebral circulation and hemodynamic evaluation, 953
Anomaly
Transthird ventricular approach for a high basilar bifurcation aneurysm. Report of three cases, 664
Anterior cervical fusion
One-stage internal fixation and anterior fusion in complex cervical spinal disorders, 234

Index

Anterior decompression
Surgical treatment for cervical spondylitic myelopathy, 745
Anterior interosseous nerve
Pain syndrome and focal myokymia due to anterior interosseous neurovascular relationships: report of a case and neurophysiological considerations, 578
Antiepileptic drugs
Solitary cysticerus granulomas. Letters, 911
Antigen
Carcinoembryonic antigen production associated with an osteolytic meningioma. Case report, 489
Arachnoid cyst
Bilateral arachnoid cysts of the sylvian region in female siblings with glutaric aciduria type I. Report of two cases, 1078
Middle cranial fossa arachnoid cyst developing in infancy. Case report, 1075
Arteriography
Surgical interruption of intradural draining vein as curative treatment of spinal dural arteriovenous fistulas, 196
Arteriovenous fistula
Arteriovenous fistula around the ventriculoperitoneal shunt system in a patient with a dural arteriovenous malformation of the posterior fossa. Case report, 288
Arteriovenous fistula or giant aneurysm. Letters, 1097
Arteriovenous malformation
Arteriovenous fistula around the ventriculoperitoneal shunt system in a patient with a dural arteriovenous malformation of the posterior fossa. Case report, 288
Deep central arteriovenous malformations of the brain: the role of endovascular treatment, 190
Isotonic mannitol and the prevention of local heat generation and tissue adherence to bipolar diathermy forceps tips during electrical coagulation. Technical note, 669
Linear accelerator radiosurgery for arteriovenous malformations: the relationship of size to outcome, 180
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
A proposed classification for spinal and cranial dural arteriovenous fistulous malformations and implications for treatment, 166
Radiosurgery of large AVMs. Letters, 1095
Tentorial AVMs. Letters, 1098
Total recanalization of a spontaneously thrombosed arteriovenous malformation. Case report, 506
The use of intraarterial papaverine in the management of vasospasm complicating arteriovenous malformation resection. Report of two cases, 296
Arthrodesis
Quadrant anatomy of the articular pillars (lateral cervical mass) of the cervical spine, 1011
Aspirin
Aspirin and delayed cerebral ischemia after aneurysmal subarachnoid hemorrhage, 945
Astrocytoma
Alternative RNA splicing of the hyaluronic acid receptor CD44 in the normal human brain and in brain tumors, 858
Assessment of brain tumor cell motility *in vivo* and *in vitro*, 615
Infiltrative astrocytomas of the thalamus, 548
Interstitial radiosurgery of low-grade gliomas, 418
Low-grade gliomas of the cerebral hemispheres in children: an analysis of 71 cases, 536
Multiple intraspinal low-grade astrocytomas mixed with lipoma (astrolipoma). Case report, 891
Phase II evaluation of recombinant interferon alpha and BCNU in recurrent glioma, 430
Survival after stereotactic biopsy and irradiation of cerebral nonanaplastic, nonpilocytic astrocytoma, 523
Atherosclerosis
Percutaneous transluminal angioplasty in the treatment of atherosclerotic disease of the anterior cerebral circulation and hemodynamic evaluation, 953

Balloon embolization
Endovascular alleviation of deficits. Letters, 909
Basal ganglia
Deep central arteriovenous malformations of the brain: the role of endovascular treatment, 190
Basilar artery
Characteristics of relaxation induced by calcitonin gene–related peptide in contracted rabbit basilar artery, 91
Poor prognosis of ruptured intracranial aneurysms of the posterior circulation, 791
bFGF
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
Bigelow, Henry J.
Phineas among the phrenologists: the American crowbar case and nineteenth-century theories of cerebral localization, 672
Bilirubin
The effect of hemoglobin and its metabolites on energy metabolism in cultured cerebrovascular smooth-muscle cells, 244
Biodegradable polymer
Effectiveness of controlled release of a cyclophosphamide derivative with polymers against rat gliomas, 481
Biopsy
Diagnostic yield of stereotactic brain biopsy guided by positron emission tomography with [^{18}F]fluorodeoxyglucose, 445
Infiltrative astrocytomas of the thalamus, 548
Blood-brain barrier
Neoplastic and pharmacological influence on the permeability of an *in vitro* blood-brain barrier, 1053
Bone tumor
Desmoplastic fibroma of the skull. Case report, 119

Brachial plexus
Repair of ruptured spinal nerve roots in a brachial plexus lesion. Case report, 661
Brachytherapy
Interstitial radiosurgery of low-grade gliomas, 418
Brain chemistry
Alternative RNA splicing of the hyaluronic acid receptor CD44 in the normal human brain and in brain tumors, 858
Brain injury
Effects of acute ethanol intoxication on experimental traumatic brain injury in the rat: neurobehavioral and phosphorus-31 nuclear magnetic resonance spectroscopy studies, 813
Effects of ethanol on respiratory function in traumatic brain injury, 822
Brain lesion
Assessment of brain tumor cell motility *in vivo* and *in vitro*, 615
Preoperative localization of brain lesions by magnetic resonance imaging with a marking device. Technical note, 511
Preoperative magnetic resonance imaging localization of convexity brain lesions. Technical note, 509
Survival after stereotactic biopsy and irradiation of cerebral nonanaplastic, nonpilocytic astrocytoma, 523
Brain mapping
Presurgical localization of functional cortex using magnetic source imaging, 988
Trigeminal evoked potentials in somatosensory cortex of the *Macaca mulatta*, 1015
Brain neoplasm
Cortical stimulation mapping of phantom limb rolandic cortex. Case report, 641
Effectiveness of controlled release of a cyclophosphamide derivative with polymers against rat gliomas, 481
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
Phase II evaluation of recombinant interferon alpha and BCNU in recurrent glioma, 430
Primary intracerebral malignant lymphoma: a clinicopathological study of 89 patients, 558
Surgical treatment of trigeminal schwannomas, 711
Brainstem
Computerized tomography-guided stereotactic surgery for brainstem masses: a risk-benefit analysis in 71 patients, 976
Limited protective effects of etomidate during brainstem ischemia in dogs, 278
Brainstem compression
Cyclosporine A toxicity presenting with acute cerebellar edema and brainstem compression. Case report, 1068
Brain tumor
Computerized tomography-guided stereotactic surgery for brainstem masses: a risk-benefit analysis in 71 patients, 976
Diagnostic yield of stereotactic brain biopsy guided by positron emission tomography with [^{18}F]fluorodeoxyglucose, 445
Differential effects of vincristine and phenytoin on proliferation, migration, and invasion of human glioma cell lines, 1035
The role of minocycline in treatment of intracranial 9L glioma, 635
Supratentorial–infraoccipital approach for posteromedial temporal lobe lesions, 940
Bromodeoxyurdine
Aggressive meningeal tumors: review of a series, 17
Bulk flow
Convection-enhanced distribution of large molecules in gray matter during interstitial drug infusion, 1021

Calcitonin gene-related peptide
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
Calcium channel blockers
Combination therapy with cisplatin and nifedipine inducing apoptosis in multidrug-resistant human glioblastoma cells, 469
Calvaria
Split-calvaria osteoplastic flap. Letters, 150
Carcinogenesis
Radiation-induced meningioma with a 63-year latency period. Case report, 487
Carotid artery
Basic mechanism of *in vitro* pulsed-dye laser-induced vasodilation, 256
Carotid endarterectomy
An observational study of near-infrared spectroscopy during carotid endarterectomy, 756
Cauda equina
Hemodynamic activity associated with paraganglioma of the cauda equina. Letters, 704
Cavernous sinus
Comparison of conventional and skull base surgical approaches for the excision of trigeminal neurinomas, 719
Transmaxillosphenoidal approach to tumors invading the medial compartment of the cavernous sinus, 63
Treatment of cavernous sinus meningiomas. Letters, 702
Cell cycle
Inhibition of proliferation of human cerebral meningioma cells by suramin: effects on cell growth, cell cycle phases, extracellular growth factors, and PDGF-BB autocrine growth loop, 600
Cell motility
Assessment of brain tumor cell motility *in vivo* and *in vitro*, 615
Central canal
Pathological basis of spinal cord cavitation in syringomyelia: analysis of 105 autopsy cases, 802
Central nervous system
Schistosoma mansoni infection involving the spinal cord. Case report, 1065
Cerebellar edema
Cyclosporine A toxicity presenting with acute cerebellar edema and brainstem compression. Case report, 1068
Cerebellopontine angle
Malignant intraventricular schwannoma. Case report, 121
Cerebral artery
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
Validation of transcranial Doppler ultrasound with a stereotactic neurosurgical technique, 972
Cerebral blood flow
Focal ischemia due to traumatic contusions documented by stable xenon-CT and ultrastructural studies, 966
Cerebral blood volume
Focal ischemia due to traumatic contusions documented by stable xenon-CT and ultrastructural studies, 966
Cerebral ischemia
Aspirin and delayed cerebral ischemia after aneurysmal subarachnoid hemorrhage, 945
Insulin reduction of cerebral infarction due to transient focal ischemia, 262
Phase II trial of tirilazad in aneurysmal subarachnoid hemorrhage. A report of the Cooperative Aneurysm Study, 786
Cerebral palsy
Changes in hip migration after selective dorsal rhizotomy for spastic quadriplegia in cerebral palsy, 567
Cerebral perfusion
Percutaneous transluminal angioplasty in the treatment of atherosclerotic disease of the anterior cerebral circulation and hemodynamic evaluation, 953
Cerebral vasospasm
The effect of hemoglobin and its metabolites on energy metabolism in cultured cerebrovascular smooth-muscle cells, 244
Endothelin concentrations in patients with aneurysmal subarachnoid hemorrhage: correlation with cerebral vasospasm, delayed ischemic neurological deficits, and volume of hematoma, 55
Phase II trial of tirilazad in aneurysmal subarachnoid hemorrhage. A report of the Cooperative Aneurysm Study, 786
Cerebrospinal fluid
Peritoneal cerebrospinal fluid shunt insertion: a technique for protection of the abdominal catheter. Technical note, 305
Cervical spine
Quadrant anatomy of the articular pillars (lateral cervical mass) of the cervical spine, 1011

Index

Treatment of occipital neuralgia by partial posterior rhizotomy at C1–3, 581
Vertical facet splitting: a special variant of rotary dislocations of the cervical spine, 239
Cervical spondylosis
Surgical treatment for cervical spondylitic myelopathy, 745
Chemotherapy
Chemotherapy and meningiomas. Letters, 517
Effectiveness of controlled release of a cyclophosphamide derivative with polymers against rat gliomas, 481
Infiltrative astrocytomas of the thalamus, 548
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
Phase II evaluation of recombinant interferon alpha and BCNU in recurrent glioma, 430
Preirradiation chemotherapy including "eight drugs in 1 day" regimen and high-dose methotrexate in childhood medulloblastoma: results of the M7 French Cooperative Study, 608
Chiari malformation
Tonsillar ectopia and Chiari malformations: monozygotic triplets. Case report, 497
Children
Clinicopathological investigation of gyral high density on computerized tomography following severe head injury in children, 995
Chordoma
Intradural cervical chordoma without bone involvement. Case report, 650
Chromoblastomycosis
Primary mycotic abscess of the brain caused by *Fonsecaea pedrosoi*. Case report, 128
Chronic pain
Spinal cord stimulation in the treatment of paraplegic pain, 35
Circulation
Antagonism of neutrophil adherence in the deteriorating stroke model in rabbits, 269
Cisplatin
Combination therapy with cisplatin and nifedipine inducing apoptosis in multidrug-resistant human glioblastoma cells, 469
Classification
A proposed classification for spinal and cranial dural arteriovenous fistulous malformations and implications for treatment, 166
Vertical facet splitting: a special variant of rotary dislocations of the cervical spine, 239
Cloverleaf skull
Lessons from a case of kleeblattschädel. Case report, 1071
Cochlear nuclei
Microsurgical anatomy around the foramen of Luschka in relation to intraoperative recording of auditory evoked potentials from the cochlear nuclei, 933
Collagen
A clinicopathological study of collagen sponge as a dural graft in neurosurgery, 406
Collagen sponge
A clinicopathological study of collagen sponge as a dural graft in neurosurgery, 406
Colloid
Colloid cyst removal. Letters, 703
Coma
An additional therapeutic effect of adequate hyperventilation in severe acute brain trauma: normalization of cerebral glucose uptake, 379
Computer reconstruction
Effects of coregistration of MR to CT images on MR stereotactic accuracy, 772
Computerized tomography
Bilateral arachnoid cysts of the sylvian region in female siblings with glutaric aciduria type I. Report of two cases, 1078
Computerized tomography–guided biopsy. Letter, 149
Effects of coregistration of MR to CT images on MR stereotactic accuracy, 772
Congenital tumor
Congenital cystic supratentorial hemangioblastoma. Case report, 113
Contusion
Focal ischemia due to traumatic contusions documented by stable xenon-CT and ultrastructural studies, 966
Cord tethering
Cervical cord tethering. Letters, 152
Correction
Correction: central neurocytomas of the cervical spinal cord. Letter, 706
Correction: dural arteriovenous fistulous malformations. Letter, 705
An experimental study of reflex variability in selective dorsal rhizotomy: erratum. Letter, 314
Cortical mapping
Cortical stimulation mapping of phantom limb rolandic cortex. Case report, 641
Craniofacial surgery
The extended anterior subcranial approach for skull base tumors: long term results, 1002
Craniosynostosis
Multiple suture synostosis, macrocephaly, and intracranial hypertension in a child with α-D-mannosidase deficiency. Case report, 647
Craniotomy
Celebrating the centennial (1894–1994): Leonardo Gigli and his wire saw, 1086
Endoscopic treatment of loculated hydrocephalus, 780
One-year outcome following craniotomy for traumatic hematoma in patients with fixed dilated pupils, 961
Cryptic malformation
Occult malformation with anomalous venous drainage. Letters, 311
Cushing, Harvey
The Brigham Diary of Loyal Davis: a portrait of Harvey Cushing and a neurosurgical acolyte, 683
Cushing's disease
Endocrine and metabolic characteristics of polyoma large T transgenic mice that develop ACTH-producing pituitary tumors, 879
Cyclosporine A
Cyclosporine A toxicity presenting with acute cerebellar edema and brainstem compression. Case report, 1068
Cyst
Colloid cyst removal. Letters, 703
Herniation of the spinal cord. Case report, 131
Cysticercus granuloma
Solitary cysticercus granulomas. Letters, 911
Cystoperitoneal shunt
Bilateral arachnoid cysts of the sylvian region in female siblings with glutaric aciduria type I. Report of two cases, 1078

Davis, Loyal
The Brigham Diary of Loyal Davis: a portrait of Harvey Cushing and a neurosurgical acolyte, 683
Degenerated disc
Intradiscal pressure. Letters, 1095
Dermatomes
Mapping of dermatomes of the lower extremities based on an animal model, 1030
Dexamethasone
Neoplastic and pharmacological influence on the permeability of an *in vitro* blood-brain barrier, 1053
Diacylglycerol
Protein kinase C and diacylglycerol content in basilar arteries during experimental cerebral vasospasm in the dog, 834
Dopamine
Prolactin-producing pituitary tumor: resistance to dopamine agonist therapy. Case report, 886
Dorsal root entry zone
Dorsal root entry zone lesions for intractable pain after trauma to the conus medullaris and cauda equina, 28
Dorsal root entry zone localization using direct spinal cord stimulation: an experimental study, 592
Spinal cord mapping with evoked responses for accurate localization of the dorsal root entry zone, 587
Drug delivery
Convection-enhanced distribution of large molecules in gray matter during interstitial drug infusion, 1021

Effectiveness of controlled release of a cyclophosphamide derivative with polymers against rat gliomas, 481
The role of minocycline in treatment of intracranial 9L glioma, 635
Drug toxicity neurotoxicity
Cyclosporine A toxicity presenting with acute cerebellar edema and brainstem compression. Case report, 1068
Dural arteriovenous fistula
A proposed classification for spinal and cranial dural arteriovenous fistulous malformations and implications for treatment, 166
Surgical interruption of intradural draining vein as curative treatment of spinal dural arteriovenous fistulas, 196
Dural graft
A clinicopathological study of collagen sponge as a dural graft in neurosurgery, 406
Dural sinus fistula
Combined sagittal and lateral sinus dural fistulae occlusion, 159
Duraplasty
A clinicopathological study of collagen sponge as a dural graft in neurosurgery, 406

Ecchordosis physalifora
Intradural cervical chordoma without bone involvement. Case report, 650
Edema
Focal ischemia due to traumatic contusions documented by stable xenon-CT and ultrastructural studies, 966
Edomidate
Limited protective effects of etomidate during brainstem ischemia in dogs, 278
Electromyography
Continuous intraoperative electromyographic recording during spinal surgery, 401
Embolization
Arteriovenous fistula around the ventriculoperitoneal shunt system in a patient with a dural arteriovenous malformation of the posterior fossa. Case report, 288
Deep central arteriovenous malformations of the brain: the role of endovascular treatment, 190
Endoscopy
Endoscopic treatment of loculated hydrocephalus, 780
Endothelial cells
Endothelin concentrations in patients with aneurysmal subarachnoid hemorrhage: correlation with cerebral vasospasm, delayed ischemic neurological deficits, and volume of hematoma, 55
Endothelial growth factor
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Endothelin
Endothelin concentrations in patients with aneurysmal subarachnoid hemorrhage: correlation with cerebral vasospasm, delayed ischemic neurological deficits, and volume of hematoma, 55
Endovascular therapy
Deep central arteriovenous malformations of the brain: the role of endovascular treatment, 190
Endovascular alleviation of deficits. Letters, 909
Ependyma
Pathological basis of spinal cord cavitation in syringomyelia: analysis of 105 autopsy cases, 802
Epidermal growth factor
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Epilepsy
Influence of the type of initial precipitating injury and at what age it occurs on course and outcome in patients with temporal lobe seizures, 220
Presurgical localization of functional cortex using magnetic source imaging, 988
Unilateral hippocampal mossy fiber sprouting and bilateral asymmetric neuron loss with episodic postictal psychosis, 228
Ethanol
Effects of acute ethanol intoxication on experimental traumatic brain injury in the rat: neurobehavioral and phosphorus-31 nuclear magnetic resonance spectroscopy studies, 813
Effects of ethanol on respiratory function in traumatic brain injury, 822
Evoked potential
Dorsal root entry zone localization using direct spinal cord stimulation: an experimental study, 592
Limited protective effects of etomidate during brainstem ischemia in dogs, 278
Microsurgical anatomy around the foramen of Luschka in relation to intraoperative recording of auditory evoked potentials from the cochlear nuclei, 933
Spinal cord mapping with evoked responses for accurate localization of the dorsal root entry zone, 587
Trigeminal evoked potentials in somatosensory cortex of the *Macaca mulatta*, 1015

Facet splitting
Vertical facet splitting: a special variant of rotary dislocations of the cervical spine, 239
Facial palsy
Hemihypoglossal–facial nerve anastomosis in treating unilateral facial palsy after acoustic neurinoma resection, 51
Falcotentorial junction
Meningiomas arising from the falcotentorial junction. Clinical features, neuroimaging studies and surgical treatment, 726
Fibroblast growth factor
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Fibroma
Desmoplastic fibroma of the skull. Case report, 119
Flexion myelopathy
Thoracic flexion myelopathy. Case report, 1059
Flow cytometry
Human monoclonal antibody BT32/A6 and a cell cycle–independent glioma-associated surface antigen, 475
Fonsecaea pedrosoi
Primary mycotic abscess of the brain caused by *Fonsecaea pedrosoi*. Case report, 128
Foramen magnum
Neurinomas of the first two cervical nerve roots: a series of 42 cases, 917
Foramen of Luschka
Microsurgical anatomy around the foramen of Luschka in relation to intraoperative recording of auditory evoked potentials from the cochlear nuclei, 933
Free radical scavengers
Phase II trial of tirilazad in aneurysmal subarachnoid hemorrhage. A report of the Cooperative Aneurysm Study, 786
Frontal lobe
Phineas among the phrenologists: the American crowbar case and nineteenth-century theories of cerebral localization, 672

Gastrointestinal
Prospective double-blind placebo-controlled randomized trial on the use of ranitidine in preventing postoperative gastroduodenal complications in high-risk neurosurgical patients, 413
Gene therapy
Transfection with bFGF sense and antisense cDNA resulting in modification of malignant glioma growth, 83
Gene transfer
Adenovirally mediated gene transfer into experimental solid brain tumors and leptomeningeal cancer cells, 70
Giant aneurysm
Arteriovenous fistula or giant aneurysm. Letters, 1097
Thrombosed growing giant aneurysms of the vertebral artery: growth mechanism and management, 796
Gigantism
Gigantism and somatostatin neurons. Letters, 1100
Gigli, Leonardo
Celebrating the centennial (1894–1994): Leonardo Gigli and his wire saw, 1086
Glial fibrillary acidic protein expression
The role of epidermal growth factor receptor in human gliomas: II. The control of glial process extension and the expression of glial fibrillary acidic protein, 847

Index

Glioblastoma multiforme
The role of epidermal growth factor receptor in human gliomas: I. The control of cell growth, 841
The role of epidermal growth factor receptor in human gliomas: II. The control of glial process extension and the expression of glial fibrillary acidic protein, 847
Stereotactic radiosurgery for glioblastoma: a final report of 31 patients, 530
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Glioma
Alternative RNA splicing of the hyaluronic acid receptor CD44 in the normal human brain and in brain tumors, 858
Assessment of brain tumor cell motility *in vivo* and *in vitro*, 615
Combination therapy with cisplatin and nifedipine inducing apoptosis in multidrug-resistant human glioblastoma cells, 469
Delayed occurrence of cerebellar pleomorphic xanthoastrocytoma after supratentorial pleomorphic xanthoastrocytoma removal. Case report, 116
Effectiveness of controlled release of a cyclophosphamide derivative with polymers against rat gliomas, 481
Human monoclonal antibody BT32/A6 and a cell cycle–independent glioma-associated surface antigen, 475
Interstitial radiosurgery of low-grade gliomas, 418
Low-grade gliomas of the cerebral hemispheres in children: an analysis of 71 cases, 536
Neoplastic and pharmacological influence on the permeability of an *in vitro* blood-brain barrier, 1053
Neurofibromatosis and multicentric gliomas. Letters, 151
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
Radiation necrosis or glioma recurrence: is computer-assisted stereotactic biopsy useful?, 436
Transfection with bFGF sense and antisense cDNA resulting in modification of malignant glioma growth, 83
Treatment of intrathecal morphine overdose. Letters, 147
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Gliosarcoma
Adenovirally mediated gene transfer into experimental solid brain tumors and leptomeningeal cancer cells, 70
Glutaric aciduria type I
Bilateral arachnoid cysts of the sylvian region in female siblings with glutaric aciduria type I. Report of two cases, 1078
Graft
Thrombosed growing giant aneurysms of the vertebral artery: growth mechanism and management, 796
Growth factor
Inhibition of proliferation of human cerebral meningioma cells by suramin: effects on cell growth, cell cycle phases, extracellular growth factors, and PDGF-BB autocrine growth loop, 600
The role of epidermal growth factor receptor in human gliomas: I. The control of cell growth, 841

Head injury
An additional therapeutic effect of adequate hyperventilation in severe acute brain trauma: normalization of cerebral glucose uptake, 379
Cerebrovascular carbon dioxide reactivity assessed by intracranial pressure dynamics in severely head injured patients, 386
Classification and regression trees (CART) for prediction of functioning at 1 year following head trauma, 764
Clinicopathological investigation of gyral high density on computerized tomography following severe head injury in children, 995
Hemangioendothelioma
Spinal cord compression due to Masson's vegetant intravascular hemangioendothelioma. Case report, 125
Hemangiopericytoma
Aggressive meningeal tumors: review of a series, 17
Hematoma
Timing of postoperative intracranial hematoma development and implications for the best use of neurosurgical intensive care, 48
Hematopoiesis
Nonsurgical approach to paraparesis due to extramedullary hematopoiesis. Report of two cases, 657
Hemiballismus
Control of persistent hemiballismus by chronic thalamic stimulation. Report of two cases, 501
Hemifacial spasm
Microvascular decompression for hemifacial spasm, 201
Tentorial meningioma and painful tic convulsif. Case report, 895
Hemoglobin
Basic mechanism of *in vitro* pulsed-dye laser-induced vasodilation, 256
The effect of hemoglobin and its metabolites on energy metabolism in cultured cerebrovascular smooth-muscle cells, 244
Hemorrhagic infarction
Clinicopathological investigation of gyral high density on computerized tomography following severe head injury in children, 995
Herniation
Extreme lateral disc herniation manifesting as nerve sheath tumor. Case report, 654
Hindbrain herniation
A critical appraisal of drainage in syringomyelia, 1
Lessons from a case of kleeblattschädel. Case report, 1071
History of neurosurgery
The Brigham Diary of Loyal Davis: a portrait of Harvey Cushing and a neurosurgical acolyte, 683
Celebrating the centennial (1894–1994): Leonardo Gigli and his wire saw, 1086
Early history of neurosurgery in Manitoba: threads in the tapestry of world neurosurgery, 900
Neurosurgery at the Mount Sinai Hospital. Letter, 518
Phineas among the phrenologists: the American crowbar case and nineteenth-century theories of cerebral localization, 672
Horseradish peroxidase
The fate of motoneurons in the spinal cord after peripheral nerve repair: a quantitative study using the neural tracer horseradish peroxidase, 623
Hydrocephalus
Accurate placement of the atrial catheter in ventriculoatrial shunts. Technical note, 140
Endoscopic treatment of loculated hydrocephalus, 780
A guide to placement of parietooccipital ventricular catheters. Technical note, 300
Lessons from a case of kleeblattschädel. Case report, 1071
Peritoneal cerebrospinal fluid shunt insertion: a technique for protection of the abdominal catheter. Technical note, 307
Hydromyelia
Symptomatic syringomyelia following surgery to treat retethering of lipomyelomeningoceles, 752
Hyperfractionated radiation therapy
Infiltrative astrocytomas of the thalamus, 548
Hyperhidrosis
No sweat and a false view. Letters, 151
Hyperpathia
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Hyperventilation
An additional therapeutic effect of adequate hyperventilation in severe acute brain trauma: normalization of cerebral glucose uptake, 379

Immunohistochemistry
Carcinoembryonic antigen production associated with an osteolytic meningioma. Case report, 489
Expression of monocyte chemoattractant protein-1 in meningioma, 874
Immunotherapy
Human monoclonal antibody BT32/A6 and a cell cycle–independent glioma-associated surface antigen, 475
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
Infarction
Insulin reduction of cerebral infarction due to transient focal ischemia, 262

Instrumentation
Use of a new aneurysm clip with inverted-spring mechanism to facilitate visual control during clip application. Technical note, 898
Intensive care
Timing of postoperative intracranial hematoma development and implications for the best use of neurosurgical intensive care, 48
Interferon
Phase II evaluation of recombinant interferon alpha and BCNU in recurrent glioma, 430
Internal fixation
One-stage internal fixation and anterior fusion in complex cervical spinal disorders, 234
Interstitial infusion
Convection-enhanced distribution of large molecules in gray matter during interstitial drug infusion, 1021
Interventional neuroradiology
Deep central arteriovenous malformations of the brain: the role of endovascular treatment, 190
Intracranial aneurysm
Seasons, snow, and subarachnoid hemorrhage: Lack of association in Rochester, Minnesota. Letter, 912
Thalamic syndrome caused by unruptured cerebral aneurysm. Case report, 291
Intracranial pressure
Cerebrovascular carbon dioxide reactivity assessed by intracranial pressure dynamics in severely head injured patients, 386
Multiple suture synostosis, macrocephaly, and intracranial hypertension in a child with α-D-mannosidase deficiency. Case report, 647
Intracranial venous drainage
Lessons from a case of kleeblattschädel. Case report, 1071
Intradiscal pressure
Intradiscal pressure. Letters, 1095
Intradural chordoma
Intradural cervical chordoma without bone involvement. Case report, 650
Intramedullary spinal cord lipoma
Intramedullary spinal cord lipomas, 394
Intramedullary tumor
Multiple intraspinal low-grade astrocytomas mixed with lipoma (astrolipoma). Case report, 891
Intrathecal
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Iodine-125
Interstitial radiosurgery of low-grade gliomas, 418
Irrigation
Isotonic mannitol and the prevention of local heat generation and tissue adherence to bipolar diathermy forceps tips during electrical coagulation. Technical note, 669
Ischemia
Limited protective effects of etomidate during brainstem ischemia in dogs, 278

Jugular foramen
Surgical treatment of jugular foramen schwannomas, 924

Kernohan's notch
Kernohan's notch in chronic subdural hematoma: findings on magnetic resonance imaging. Case report, 645
Ki-67
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461

Laminectomy
Surgical treatment for cervical spondylitic myelopathy, 745
Laser
Basic mechanism of *in vitro* pulsed-dye laser-induced vasodilation, 256
Leukocytes
Antagonism of neutrophil adherence in the deteriorating stroke model in rabbits, 269
Linear accelerator
Linear accelerator radiosurgery for arteriovenous malformations: the relationship of size to outcome, 180
Lipoma
Multiple intraspinal low-grade astrocytomas mixed with lipoma (astrolipoma). Case report, 891
Symptomatic syringomyelia following surgery to treat retethering of lipomyelomeningoceles, 752
Lipomyelomeningocele
Symptomatic syringomyelia following surgery to treat retethering of lipomyelomeningoceles, 752
Local anesthesia
Topical ophthalmic treatment for trigeminal neuralgia. Letters, 699
Lower extremity
Mapping of dermatomes of the lower extremity based on an animal model, 1030
Lymphoma
Isolated toxoplasmosis of the thoracic spinal cord in a patient with acquired immunodeficiency syndrome. Case report, 493

Macrophage
Expression of monocyte chemoattractant protein-1 in meningioma, 874
Magnetic resonance angiography
Nonvisualization of a large cerebral aneurysm despite high-resolution magnetic resonance angiography. Case report, 294
Magnetic resonance imaging
Effects of coregistration of MR to CT images on MR stereotactic accuracy, 772
Kernohan's notch in chronic subdural hematoma: findings on magnetic resonance imaging. Case report, 645
Preoperative localization of brain lesions by magnetic resonance imaging with a marking device. Technical note, 511
Preoperative magnetic resonance imaging localization of convexity brain lesions. Technical note, 509
The use of magnetic resonance angiography in stereotactic neurosurgery, 982
Validation of transcranial Doppler ultrasound with a stereotactic neurosurgical technique, 972
Magnetoencephalography
Presurgical localization of functional cortex using magnetic source imaging, 988
Malignant glioma
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
Malignant meningioma
Chemotherapy and meningiomas. Letters, 517
Malignant tumor
Radiation-induced meningioma with a 63-year latency period. Case report, 487
Mannosidosis
Multiple suture synostosis, macrocephaly, and intracranial hypertension in a child with α-D-mannosidase deficiency. Case report, 647
Masson's tumor
Spinal cord compression due to Masson's vegetant intravascular hemangioendothelioma. Case report, 125
Meckel's cave
Comparison of conventional and skull base surgical approaches for the excision of trigeminal neurinomas, 719
Medulla oblongata
Microvascular anatomy of the anterior surface of the medulla oblongata and olive, 97
Medulloblastoma
Preirradiation chemotherapy including "eight drugs in 1 day" regimen and high-dose methotrexate in childhood medulloblastoma: results of the M7 French Cooperative Study, 608
Meningioma
Aggressive meningeal tumors: review of a series, 17
Androgen receptor expression in meningiomas, 453
Carcinoembryonic antigen production associated with an osteolytic meningioma. Case report, 489
Expression of monocyte chemoattractant protein-1 in meningioma, 874

Index

Inhibition of proliferation of human cerebral meningioma cells by suramin: effects on cell growth, cell cycle phases, extracellular growth factors, and PDGF-BB autocrine growth loop, 600
Meningiomas arising from the falcotentorial junction. Clinical features, neuroimaging studies and surgical treatment, 726
Radiation-induced meningioma with a 63-year latency period. Case report, 487
Tentorial meningioma and painful tic convulsif. Case report, 895
Treatment of cavernous sinus meningiomas. Letters, 702
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Metastatic tumor
Unilateral posterolateral decompression without stabilization for neurological palliation of symptomatic spinal metastasis in debilitated patients, 739
Metastasis
Alternative RNA splicing of the hyaluronic acid receptor CD44 in the normal human brain and in brain tumors, 858
Malignant intraventricular schwannoma. Case report, 121
Metastatic pituitary adenoma. Letters, 700
Microvascular decompression
Microvascular decompression for hemifacial spasm, 201
Treatment for trigeminal neuralgia. Letter, 312
Middle cranial fossa
Middle cranial fossa arachnoid cyst developing in infancy. Case report, 1075
Migration
Differential effects of vincristine and phenytoin on proliferation, migration, and invasion of human glioma cell lines, 1035
Monoclonal antibody
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
Morphine
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Multiauthored manuscripts
Multiauthored manuscripts. Letter, 700
Multi-modality registration
A noninvasive thermoplastic head immobilization system. Technical note, 1082
Myelopathy
Herniation of the spinal cord. Case report, 131
Myokymia
Pain syndrome and focal myokymia due to anterior interosseous neurovascular relationships: report of a case and neurophysiological considerations, 578

Near-infrared spectroscopy
An observational study of near-infrared spectroscopy during carotid endarterectomy, 756
Nerve regeneration
The fate of motoneurons in the spinal cord after peripheral nerve repair: a quantitative study using the neural tracer horseradish peroxidase, 623
Nerve repair
The fate of motoneurons in the spinal cord after peripheral nerve repair: a quantitative study using the neural tracer horseradish peroxidase, 623
Repair of ruptured spinal nerve roots in a brachial plexus lesion. Case report, 661
Nerve sheath tumor
Extreme lateral disc herniation manifesting as nerve sheath tumor. Case report, 654
Neurinoma
Neurinomas of the first two cervical nerve roots: a series of 42 cases, 917
Neurobehavioral outcome
Classification and regression trees (CART) for prediction of functioning at 1 year following head trauma, 764
Neurodiagnostic imaging
Spinal cord tumors in children. Letters, 516
Neuroectodermal tumor
Alternative RNA splicing of the hyaluronic acid receptor CD44 in the normal human brain and in brain tumors, 858
Melanotic neuroectodermal skull tumor. Letters, 910
Neurofibroma
Long-term outcome after removal of spinal neurofibroma, 572
Neurofibromatosis
Long-term outcome after removal of spinal neurofibroma, 572
Neurofibromatosis and multicentric gliomas. Letters, 151
Neurinomas of the first two cervical nerve roots: a series of 42 cases, 917
Treatment of intrathecal morphine overdose. Letters, 147
Neuropathic pain
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Neuropeptide Y
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
Neurosurgery
Prospective double-blind placebo-controlled randomized trial on the use of ranitidine in preventing postoperative gastroduodenal complications in high-risk neurosurgical patients, 413
Neurosurgical education
The Brigham Diary of Loyal Davis: a portrait of Harvey Cushing and a neurosurgical acolyte, 683
Nifedipine
Combination therapy with cisplatin and nifedipine inducing apoptosis in multidrug-resistant human glioblastoma cells, 469
Non-Hodgkin's lymphoma
Primary intracerebral malignant lymphoma: a clinicopathological study of 89 patients, 558
Primary peripheral–postthymic T-cell lymphoma in the central nervous system: immunological and molecular approaches to diagnosis, 77
Noninvasive stereotaxy
A noninvasive thermoplastic head immobilization system. Technical note, 1082
Notochord
Intradural cervical chordoma without bone involvement. Case report, 650

Occipital neuralgia
Treatment of occipital neuralgia by partial posterior rhizotomy at C1–3, 581
Occlusion *in situ*
Combined sagittal and lateral sinus dural fistulae occlusion, 159
Olive
Microvascular anatomy of the anterior surface of the medulla oblongata and olive, 97
Operative approach
Supratentorial–infraoccipital approach for posteromedial temporal lobe lesions, 940
Operative technique
Celebrating the centennial (1894–1994): Leonardo Gigli and his wire saw, 1086
Preoperative magnetic resonance imaging localization of convexity brain lesions. Technical note, 509
Temporal muscle fixation. Letters, 701
Opiate
Analgesia induced by transplantation of encapsulated tumor cells secreting β-endorphin, 630
Optic nerve
Monitoring visual evoked potentials during retraction of the canine optic nerve: protective effect of unroofing the optic canal, 284
Osteolysis
Carcinoembryonic antigen production associated with an osteolytic meningioma. Case report, 489
Osteoplastic flap
Split-calvaria osteoplastic flap. Letters, 150
Outcome
Long-term outcome after removal of spinal neurofibroma, 572

Pain
Analgesia induced by transplantation of encapsulated tumor cells secreting β-endorphin, 630

Treatment of occipital neuralgia by partial posterior rhizotomy at C1–3, 581
Paraganglioma
Hemodynamic activity associated with paraganglioma of the cauda equina. Letters, 704
Paraplegia
Dorsal root entry zone lesions for intractable pain after trauma to the conus medullaris and cauda equina, 28
Nonsurgical approach to paraparesis due to extramedullary hematopoiesis. Report of two cases, 657
Patient immobilization
A noninvasive thermoplastic head immobilization system. Technical note, 1082
Pedicle
Crossed-screw fixation of the unstable thoracic and lumbar spine, 11
Peptide
Characteristics of relaxation induced by calcitonin gene–related peptide in contracted rabbit basilar artery, 91
Peripheral nerve
The fate of motoneurons in the spinal cord after peripheral nerve repair: a quantitative study using the neural tracer horseradish peroxidase, 623
Perivascular nerve
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
Permeability
Neoplastic and pharmacological influence on the permeability of an *in vitro* blood-brain barrier, 1053
Phenytoin
Differential effects of vincristine and phenytoin on proliferation, migration, and invasion of human glioma cell lines, 1035
Phospholipase A2
Neoplastic and pharmacological influence on the permeability of an *in vitro* blood-brain barrier, 1053
Pituitary adenoma
Metastatic pituitary adenoma. Letters, 700
Prolactin-producing pituitary tumor: resistance to dopamine agonist therapy. Case report, 886
Pituitary tumor
Endocrine and metabolic characteristics of polyoma large T transgenic mice that develop ACTH-producing pituitary tumors, 879
Transmaxillosphenoidal approach to tumors invading the medial compartment of the cavernous sinus, 63
Platelet-activating factor
Antagonism of neutrophil adherence in the deteriorating stroke model in rabbits, 269
Platelet-derived growth factor
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Plating
Quadrant anatomy of the articular pillars (lateral cervical mass) of the cervical spine, 1011
Pleomorphic xanthoastrocytoma
Delayed occurrence of cerebellar pleomorphic xanthoastrocytoma after supratentorial pleomorphic xanthoastrocytoma removal. Case report, 116
Polyoma large T
Endocrine and metabolic characteristics of polyoma large T transgenic mice that develop ACTH-producing pituitary tumors, 879
Posterior inferior cerebellar artery
Treatment of vertebral artery dissecting aneurysm by aneurysm trapping and posterior inferior cerebellar artery reimplantation. Case report, 137
Primary central nervous system lymphoma
Primary intracerebral malignant lymphoma: a clinicopathological study of 89 patients, 558
Prognosis
Classification and regression trees (CART) for prediction of functioning at 1 year following head trauma, 764
Prolactinoma
Prolactin-producing pituitary tumor: resistance to dopamine agonist therapy. Case report, 886
Protein kinase C
Characteristics of relaxation induced by calcitonin gene–related peptide in contracted rabbit basilar artery, 91
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
Protein kinase C and diacylglycerol content in basilar arteries during experimental cerebral vasospasm in the dog, 834
Pseudomeningocele
Herniation of the spinal cord. Case report, 131
Pulsatile arterial compression
Pain syndrome and focal myokymia due to anterior interosseous neurovascular relationships: report of a case and neurophysiological considerations, 578
Pupillary nonreactivity
One-year outcome following craniotomy for traumatic hematoma in patients with fixed dilated pupils, 961

Quadriplegia
Changes in hip migration after selective dorsal rhizotomy for spastic quadriplegia in cerebral palsy, 567

Radiation-induced tumor
Radiation-induced meningioma with a 63-year latency period. Case report, 487
Radiation therapy
Low-grade gliomas of the cerebral hemispheres in children: an analysis of 71 cases, 536
Nonsurgical approach to paraparesis due to extramedullary hematopoiesis. Report of two cases, 657
Radiation-induced meningioma with a 63-year latency period. Case report, 487
Survival after stereotactic biopsy and irradiation of cerebral nonanaplastic, nonpilocytic astrocytoma, 523
Radiculopathy
Continuous intraoperative electromyographic recording during spinal surgery, 401
Radionecrosis
Radiation necrosis or glioma recurrence: is computer-assisted stereotactic biopsy useful?, 436
Radiosurgery
Linear accelerator radiosurgery for arteriovenous malformations: the relationship of size to outcome, 180
Radiosurgery of large AVMs. Letters, 1095
Stereotactic radiosurgery for glioblastoma: a final report of 31 patients, 530
Radiotherapy
Interstitial radiosurgery of low-grade gliomas, 418
Preirradiation chemotherapy including "eight drugs in 1 day" regimen and high-dose methotrexate in childhood medulloblastoma: results of the M7 French Cooperative Study, 608
Stereotactic radiosurgery for glioblastoma: a final report of 31 patients, 530
Recanalization
Total recanalization of a spontaneously thrombosed arteriovenous malformation. Case report, 506
Rhizotomy
Changes in hip migration after selective dorsal rhizotomy for spastic quadriplegia in cerebral palsy, 567
Treatment of occipital neuralgia by partial posterior rhizotomy at C1–3, 581

Sarcoma
Aggressive meningeal tumors: review of a series, 17
Scalp
Carcinoembryonic antigen production associated with an osteolytic meningioma. Case report, 489
Schistosomiasis
Schistosoma mansoni infection involving the spinal cord. Case report, 1065

Index

Schwannoma
Malignant intraventricular schwannoma. Case report, 121
Surgical treatment of jugular foramen schwannomas, 924
Surgical treatment of trigeminal schwannomas, 711
Screw fixation
Crossed-screw fixation of the unstable thoracic and lumbar spine, 11
Seizures
Quantified patterns of mossy fiber sprouting and neuron densities in hippocampal and lesional seizures, 211
Supratentorial–infraoccipital approach for posteromedial temporal lobe lesions, 940
Shunt
A critical appraisal of drainage in syringomyelia, 1
Peritoneal cerebrospinal fluid shunt insertion: a technique for protection of the abdominal catheter. Technical note, 307
Shunt complication
Knotted bowel: small-bowel obstruction from coiled peritoneal shunt catheters. Report of two cases, 1062
Skull base
Comparison of conventional and skull base surgical approaches for the excision of trigeminal neurinomas, 719
Skull base exposure
The extended anterior subcranial approach for skull base tumors: long term results, 1002
Skull base tumors
The extended anterior subcranial approach for skull base tumors: long term results, 1002
Melanotic neuroectodermal skull tumor. Letters, 910
Skull lesion
Desmoplastic fibroma of the skull. Case report, 119
Small-bowel obstruction
Knotted bowel: small-bowel obstruction from coiled peritoneal shunt catheters. Report of two cases, 1062
Smooth-muscle cell
The effect of hemoglobin and its metabolites on energy metabolism in cultured cerebrovascular smooth-muscle cells, 244
Protein kinase C and diacylglycerol content in basilar arteries during experimental cerebral vasospasm in the dog, 834
Somatosensory cortex
Cortical stimulation mapping of phantom limb rolandic cortex. Case report, 641
Somatostatin
Gigantism and somatostatin neurons. Letters, 1100
Spina bifida
Wound healing in trophic ulcers in spina bifida patients, 40
Spinal cord
Cervical cord tethering. Letters, 152
Dorsal root entry zone localization using direct spinal cord stimulation: an experimental study, 592
Intramedullary spinal cord lipomas, 394
Isolated toxoplasmosis of the thoracic spinal cord in a patient with acquired immunodeficiency syndrome. Case report, 493
Multiple intraspinal low-grade astrocytomas mixed with lipoma (astrolipoma). Case report, 891
Pathological basis of spinal cord cavitation in syringomyelia: analysis of 105 autopsy cases, 802
Spinal cord mapping with evoked responses for accurate localization of the dorsal root entry zone, 587
Surgical interruption of intradural draining vein as curative treatment of spinal dural arteriovenous fistulas, 196
Spinal cord compression
Nonsurgical approach to paraparesis due to extramedullary hematopoiesis. Report of two cases, 657
Spinal cord compression due to Masson's vegetant intravascular hemangioendothelioma. Case report, 125
Unilateral posterolateral decompression without stabilization for neurological palliation of symptomatic spinal metastasis in debilitated patients, 739
Spinal cord herniation
Herniation of the spinal cord. Case report, 131
Spinal cord injury
Dorsal root entry zone lesions for intractable pain after trauma to the conus medullaris and cauda equina, 28
Spinal cord stimulation in the treatment of paraplegic pain, 35
Spinal cord stimulation
Spinal cord stimulation in the treatment of paraplegic pain, 35
Spinal fusion
Crossed-screw fixation of the unstable thoracic and lumbar spine, 11
Thoracic flexion myelopathy. Case report, 1059
Spinal neoplasm
Long-term outcome after removal of spinal neurofibroma, 572
Spinal nerve root
Mapping of dermatomes of the lower extremities based on an animal model, 1030
Repair of ruptured spinal nerve roots in a brachial plexus lesion. Case report, 661
Spinal plate
One-stage internal fixation and anterior fusion in complex cervical spinal disorders, 234
Spinal stenosis
Surgery for lumbar spinal stenosis. Letters, 912
Spinal tumors
Spinal cord tumors in children. Letters, 516
Spondylolisthesis
Surgery for lumbar spinal stenosis. Letters, 912
Spontaneous thrombosis
Total recanalization of a spontaneously thrombosed arteriovenous malformation. Case report, 506
Stereotactic neurosurgery
The use of magnetic resonance angiography in stereotactic neurosurgery, 982
Stereotactic surgery
Computerized tomography-guided stereotactic surgery for brainstem masses: a risk-benefit analysis in 71 patients, 976
Stereotaxis
Computerized tomography–guided biopsy. Letter, 149
Control of persistent hemiballismus by chronic thalamic stimulation. Report of two cases, 501
Diagnostic yield of stereotactic brain biopsy guided by positron emission tomography with [^{18}F]fluorodeoxyglucose, 445
Effects of coregistration of MR to CT images on MR stereotactic accuracy, 772
Linear accelerator radiosurgery for arteriovenous malformations: the relationship of size to outcome, 180
Stereotactic radiosurgery for glioblastoma: a final report of 31 patients, 530
Survival after stereotactic biopsy and irradiation of cerebral nonanaplastic, nonpilocytic astrocytoma, 523
Stroke
Antagonism of neutrophil adherence in the deteriorating stroke model in rabbits, 269
Subarachnoid hemorrhage
Aspirin and delayed cerebral ischemia after aneurysmal subarachnoid hemorrhage, 945
Coagulopathy with the use of hetastarch in the treatment of aneurysmal vasospasm, 44
Nitric oxide synthase and guanylate cyclase levels in canine basilar artery after subarachnoid hemorrhage, 250
Phase II trial of tirilazad in aneurysmal subarachnoid hemorrhage. A report of the Cooperative Aneurysm Study, 786
Poor prognosis of ruptured intracranial aneurysms of the posterior circulation, 791
Protein kinase C and diacylglycerol content of basilar arteries during experimental cerebral vasospasm in the dog, 834
Seasons, snow, and subarachnoid hemorrhage: Lack of association in Rochester, Minnesota. Letter, 912
Surgery and vasospasm. Letters, 146
Subarachnoid space enlargement
Extracerebral fluid collection in infancy. Letters, 148
Subdural effusion
Extracerebral fluid collection in infancy. Letters, 148
Subdural hematoma
Kernohan's notch in chronic subdural hematoma: findings on magnetic resonance imaging. Case report, 645
Supratentorial hemangioblastoma
Congenital cystic supratentorial hemangioblastoma. Case report, 113

Suramin
Inhibition of proliferation of human cerebral meningioma cells by suramin: effects on cell growth, cell cycle phases, extracellular growth factors, and PDGF-BB autocrine growth loop, 600
Surgical approach
Low-grade gliomas of the cerebral hemispheres in children: an analysis of 71 cases, 536
Traasthird ventricular approach for a high basilar bifurcation aneurysm. Report of three cases, 664
Synaptic reorganization
Influence of the type of initial precipitating injury and at what age it occurs on course and outcome in patients with temporal lobe seizures, 220
Quantified patterns of mossy fiber sprouting and neuron densities in hippocampal and lesional seizures, 211
Unilateral hippocampal mossy fiber sprouting and bilateral asymmetric neuron loss with episodic postictal psychosis, 228
Syringomyelia
A critical appraisal of drainage in syringomyelia, 1
Pathological basis of spinal cord cavitation in syringomyelia: analysis of 105 autopsy cases, 802
Symptomatic syringomyelia following surgery to treat retethering of lipomyelomeningoceles, 752

Tamoxifen
Paradoxical elevation of Ki-67 labeling with protein kinase inhibition in malignant gliomas, 461
T-cell lymphoma
Primary peripheral–postthymic T-cell lymphoma in the central nervous system: immunological and molecular approaches to diagnosis, 77
Temporal lobe
Supratentorial–infraoccipital approach for posteromedial temporal lobe lesions, 940
Temporal muscle
Temporal muscle fixation. Letters, 701
Terminal syrinx
Terminal syrinx. Letter, 153
Tethered conus medullaris
Wound healing in trophic ulcers in spina bifida patients, 40
Tethered spinal cord
Symptomatic syringomyelia following surgery to treat retethering of lipomyelomeningoceles, 752
Thalamic pain
Thalamic syndrome caused by unruptured cerebral aneurysm. Case report, 291
Thalamus
Control of persistent hemiballismus by chronic thalamic stimulation. Report of two cases, 501
Infiltrative astrocytomas of the thalamus, 548
Thalassemia
Nonsurgical approach to paraparesis due to extramedullary hematopoiesis. Report of two cases, 657
Thoracic spine
Thoracic flexion myelopathy. Case report, 1059
Thrombosis
Thrombosed growing giant aneurysms of the vertebral artery: growth mechanism and management, 796
Tic convulsif
Tentorial meningioma and painful tic convulsif. Case report, 895
Tizanidine
A comparison of intrathecally administered narcotic and nonnarcotic analgesics for experimental chronic neuropathic pain, 595
Tonsillar ectopia
Tonsillar ectopia and Chiari malformations: monozygotic triplets. Case report, 497
Transcondylar approach
Extreme lateral transcondylar approach. Letters, 313
Transfacial approach
Transmaxillosphenoidal approach to tumors invading the medial compartment of the cavernous sinus, 63
Transfection
Transfection with bFGF sense and antisense cDNA resulting in modification of malignant glioma growth, 83
Transpedicular decompression
Unilateral posterolateral decompression without stabilization for neurological palliation of symptomatic spinal metastasis in debilitated patients, 739
Transsphenoidal surgery
Transmaxillosphenoidal approach to tumors invading the medial compartment of the cavernous sinus, 63
Transthird ventricle
Transthird ventricular approach for a high basilar bifurcation aneurysm. Report of three cases, 664
Transverse myelitis
Schistosoma mansoni infection involving the spinal cord. Case report, 1065
Trapping
Thrombosed growing giant aneurysms of the vertebral artery: growth mechanism and management, 796
Trauma
Treatment of trauma-induced amnesia. Letters, 518
Traumatic brain injury
Focal brain injury and upregulation of a developmentally regulated extracellular matrix protein, 106
Traumatic hematoma
One-year outcome following craniotomy for traumatic hematoma in patients with fixed dilated pupils, 961
Trigeminal neuralgia
Tentorial meningioma and painful tic convulsif. Case report, 895
Topical ophthalmic treatment for trigeminal neuralgia. Letters, 699
Treatment for trigeminal neuralgia. Letter, 312
Trigeminal neurinoma
Comparison of conventional and skull base surgical approaches for the excision of trigeminal neurinomas, 719
Trigeminal tumor
Surgical treatment of trigeminal schwannomas, 711
Tumor
Intramedullary spinal cord lipomas, 394
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
Presurgical localization of functional cortex using magnetic source imaging, 988

U-87MG
In vivo inhibition of angiogenesis and growth of the human U-87 malignant glial tumor by treatment with an antibody against basic fibroblast growth factor, 1044
Ultrasonics
Validation of transcranial Doppler ultrasound with a stereotactic neurosurgical technique, 972

Vascular permeability factor
Vascular endothelial growth factor in human glioma cell lines: induced secretion by EGF, PDGF-BB, and bFGF, 864
Vasoactive intestinal polypeptide
Patterns of peptide-containing perivascular nerves in the circle of Willis: their absence from intracranial arteriovenous malformations, 829
Vasodilation
Basic mechanism of *in vitro* pulsed-dye laser-induced vasodilation, 256
Vasodilatory response
Percutaneous transluminal angioplasty in the treatment of atherosclerotic disease of the anterior cerebral circulation and hemodynamic evaluation, 953
Vasospasm
Coagulopathy with the use of hetastarch in the treatment of aneurysmal vasospasm, 44
Nitric oxide synthase and guanylate cyclase levels in canine basilar artery after subarachnoid hemorrhage, 250
Protein kinase C and diacylglycerol content in basilar arteries during experimental cerebral vasospasm in the dog, 834
Surgery and vasospasm. Letters, 146
The use of intraarterial papaverine in the management of vasospasm complicating arteriovenous malformation resection. Report of two cases, 296

Index

Venous drainage
Occult malformation with anomalous venous drainage. Letters, 311
Ventricular cyst
Endoscopic treatment of loculated hydrocephalus, 780
Ventriculoatrial shunt
Accurate placement of the atrial catheter in ventriculoatrial shunts. Technical note, 140
Ventriculoperitoneal shunt
Arteriovenous fistula around the ventriculoperitoneal shunt system in a patient with a dural arteriovenous malformation of the posterior fossa. Case report, 288
A guide to placement of parietooccipital ventricular catheters. Technical note, 300
Knotted bowel: small-bowel obstruction from coiled peritoneal shunt catheters. Report of two cases, 1062
Vertebral artery
Microvascular anatomy of the anterior surface of the medulla oblongata and olive, 97
Poor prognosis of ruptured intracranial aneurysms of the posterior circulation, 791
Thrombosed growing giant aneurysms of the vertebral artery: growth mechanism and management, 796
Treatment of vertebral artery dissecting aneurysm by aneurysm trapping and posterior inferior cerebellar artery reimplantation. Case report, 137
Vincristine
Differential effects of vincristine and phenytoin on proliferation, migration, and invasion of human glioma cell lines, 1035

Wire saw
Celebrating the centennial (1894–1994): Leonardo Gigli and his wire saw, 1086
Wound
Wound healing in trophic ulcers in spina bifida patients, 40
Wound healing
Focal brain injury and upregulation of a developmentally regulated extracellular matrix protein, 106
